You Be the Judge

Aim

- To recognise whether a website is appropriate for children.

Success Criteria

- I can think about how to identify possible dangers or things which might make me uncomfortable online.

- I can identify websites that are suitable for my age.

- I can identify when to ask an adult for advice about accessing a website.

- I know what to do if a website makes me uncomfortable in any way.

Staying Safe

What potential dangers do we encounter each day? Write down your ideas on your whiteboard.

Staying Safe

What potential dangers do we encounter each day? Write down your ideas on your whiteboard.

Staying Safe

What potential dangers do we encounter each day? Write down your ideas on your whiteboard.

Remember: these might not become real dangers for us, but they are things to be aware of.

Staying Safe

When we are online, there might be hazards too. Just like in real life, we should think about how we can stay safe and do the right thing to avoid or deal with anything that might make us uncomfortable.

We can **judge** websites and decide if they are appropriate for us to use.

What things could have been dangerous?

What can we do each day to stay safe?

How to Judge

How can you tell if a website is safe for children to use?

✓ The language should be easy to understand.

✓ There might be fun games or activities.

✓ There shouldn't be space for strangers to talk to each other.
✓ There might be pictures and illustrations.

How to Judge

How can you tell if a website should be looked at with an adult to help you?

✓ It might ask for bank or card details to access something.

✓ There may be a space for people to chat there.

✓ You might be asked for your personal details.

✓ There could be content you don't understand; you may find this on a news website, for example.

If you are not sure about a website then stop, ask an adult for help and decide what to do with them.

How to Judge

How can you tell if a website is not appropriate for children?

✓ If anything on a website makes you uncomfortable in any way, look away and tell an adult immediately.

✓ They may want to see the content to check it themselves and report it.

Sort Them Out

Can you use what you have learnt to identify whether a website is appropriate for children or not?

Cut out the **Wonderful Websites? Cards** and stick them on the correct column on the **Sort Them Out Activity Sheet**.

Sort Them Out

To recognise whether a website is appropriate for children.

Cut out and stick the Wonderful Websites? cards into the table.

These websites would be fun and safe for me to use.	These websites sound fun or useful but I would check them with an adult.	These websites would make me feel uncomfortable and I don't think they are suitable for children.

Wonderful Websites

Which of the websites did you think were appropriate for children? How did you decide?

These websites would be fun and safe for me to use.	These websites sound fun or useful but I would check them with an adult.	These websites would make me feel uncomfortable and I don't think they are suitable for children.
www.amazingelephants.com — A website full of elephant facts and short video clips. You can read it easily.	www.newsat9.co.uk — A website with news stories. It is quite difficult to understand.	www.scaryfilmsfirst.org.uk — A website about horror films with trailers and clips, including films with age ratings.
www.makeanddo.com — A website full of instructions and videos for making crafts and projects.	www.footiechat.co.uk — News about football scores. Anyone can leave comments about the stories without them being checked.	www.chitchat.com — An open chatroom where anyone can talk to you. You can see words on there that you know you're not allowed to say.
www.gardengames.org — This website has maths games all about planting flowers.	www.twinkltown-zoo.com — This site contains information about the animals at Twinkltown Zoo. You need to register your details to see everything.	www.armyattack.com — An online game site with an 18 certificate.
