

## Year 2 – Explorers

This half term: Their target is to complete at least 3 projects from the grid ensuring that at least one of them is from the middle column.

A drawing or painting of Robert Scott and his expedition to Antarctica.

What has been your favourite place to explore? Draw it and write some information to tell me about what it was like there.

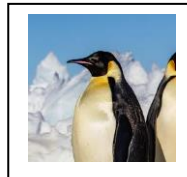

Research into another famous explorer and create a piece of work that tells me about them. You could make a short video to tell me about what that person did, for example, Neil Armstrong or Captain Cook.

Can you build a Lego scene of Robert Scott's sled and his tent?

Research about an animal that lives in Antarctica and make an information page about it.

Imagine if you were going away exploring and you were going to be gone for a long time. What meal would you choose to have before you left? Can you draw it on a paper plate or even make it out of playdough?

Can you make a junk sled that could transport something?

If you were going to Antarctica, what would you take and why?

Find a map of the world. Can you find all of the places that you have been to? You could do the same thing with a map of the UK too.
