Y6 Online Safety - SMARTbots

You're on a childrens chat site. You've been talking to MISScKr6 for a few weeks, usually just about friends. You both like the superhero films so you always chat about that. She sends you a picture to show that she's an 11 year old girl, like she says, and asks you to send a picture so she knows that you're who you say you are too!

Which SMART buttons activate?

You still want to be online friends, what should you do instead?
